SHARP

50" 4K Ultra HD 144Hz QLED miniLED Google TV™

SHARP miniLED. Celebrate every detail.

50" / 126 cm	3840 x 2160	MiniLED	Google TV

MiniLED technology in Sharp TVs uses hundreds of tiny LEDs to enable precise local dimming, allowing individual zones of the screen to adjust brightness independently. This results in high contrast, with deep blacks and bright highlights coexisting in the same frame - ideal for HDR content. Thanks to the dense LED backlight array, miniLED TVs also deliver high brightness, making them well-suited for both dark home theatres and bright living rooms without sacrificing picture quality.
